

DISHWASHERS

No longer just a luxury appliance, the dishwasher has become a necessity appliance for every kitchen. More hygienic than washing up by hand, De Dietrich dishwashers are stylish, economical, and environmentally friendly.

De Dietrich innovation and advanced technology is present across all the appliances with the range boasting a unique ESPACE basket designed to give greater internal capacity and an interior light to give better internal visibility. Additionally a four level filtering system with triple spray action ensures a superb clean every time.

Multiple programmes suit every situation and each model features ICS built-in intelligence where the dishwasher does the thinking and chooses the most effective and economical wash to suit the dirtiness of the dishes. Plus with Silence Inside technology as standard, you will hardly even notice when the dishwasher is on.

Optimum coverage for best performance

ESPACE BASKET

Innovative pyramid design

PERFORMANCE

- **AAA Energy Class:** all De Dietrich dishwashers are triple A rated for Energy, Washing and Drying so you can be sure of the best possible performance whilst saving energy, costs and the environment.
- **Silence Inside:** all De Dietrich dishwashers are super quiet with noise levels between just 43dBA and 48dBA so you can relax in peace.
- **Triple Spray Action:** the De Dietrich triple AQUAJET spray arm has an off-centre nozzle and crossed rotational jets generating greater water pressure capable of handling the toughest cleaning and ensuring optimal coverage for a great wash performance.
- **Drying & Ventilation:** an internal plasma coating on the top of the dishwasher borrows technology from the car and watersport industry to ensure an unequalled drying result. Furthermore, an accelerated drying method actually reduces drying time whilst leaving dishes extra dry.

FEATURES

- **Baskets:**
 - **ESPACE Basket:** the unique pyramid design of the De Dietrich ESPACE basket was conceived to provide more internal space for awkward and unusual shaped dishes. Anti-sliding bands give extra stability for delicate tableware and special racks cater for long stem glasses, also providing up to 20% more room.
 - **Flexibility:** collapsible racks, removable parts, mobile satellite cutlery baskets are all standard for greater loading flexibility to suit individual requirements.
 - **Adjustable Height:** with an adjustable top basket height of 5cm, De Dietrich dishwashers are amongst the most flexible available. The baskets can even be adjusted when loaded with crockery for added ease and convenience.
- **Touch Controls with LED Display:** easy to use touch controls are featured as standard whilst giving a great design aesthetic and ergonomic feel. The LED display shows wash programmes, time remaining and options available. It will also count down the pre-set time delay, display time remaining and cycle phase, plus has an auto-diagnosis system.

...IS ECONOMICAL & ENVIRONMENTALLY-FRIENDLY

TOUCH CONTROL

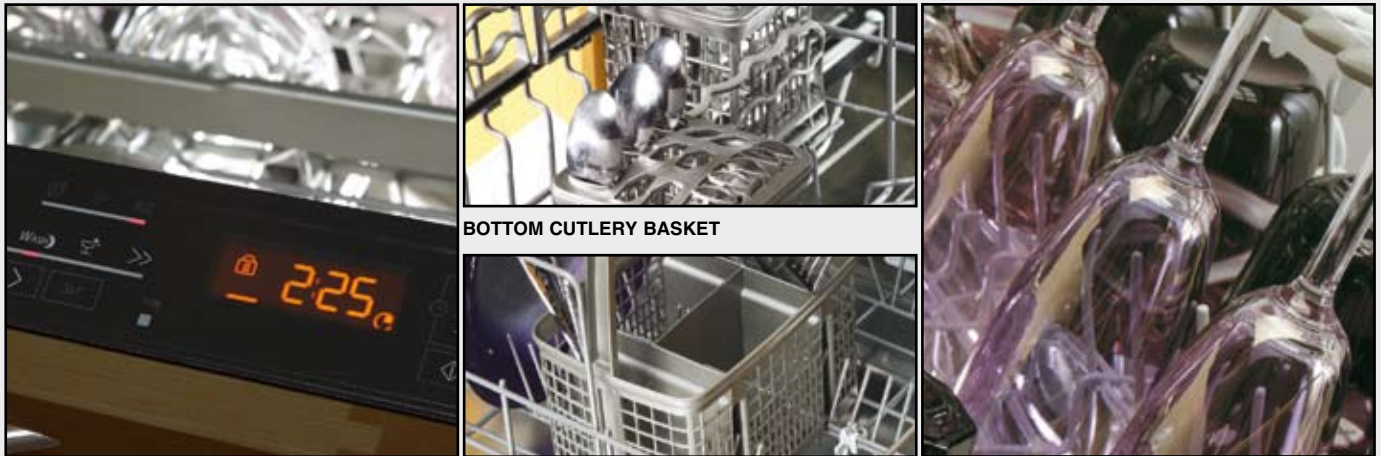

With ICS technology, the best result with the lowest cost

TOP CUTLERY BASKET

Great for holding utensils

4-IN-1 OPTION

For sparkling results every time

- **Interior Light:** for greater internal visibility when loading and unloading some models have a well placed light that is automatically activated when the door is opened.
- **Multi-purpose Dispenser:** all De Dietrich dishwashers can function with powder, liquid or tablets depending on individual preference. The dispenser is located on the upper basket to ensure optimal distribution of which ever preferred detergent.

SAFETY

- **AQUASAFE:**
 - **Anti-overflow:** prevents the water level from rising too high inside the appliance.
 - **Anti-leak:** protects from leaks instigating from beneath the dishwasher. If detected, the water supply is disconnected and the system drained.
 - **Anti-pipe Burst:** Protects against leaks in pipework and protects against return of waste water.
- **AQUABLOCK:** additionally an electrical safety pipe provides extra protection by electrically disconnecting the water supply through the closure of a valve and emptying the dishwasher of water.

WASH PROGRAMMES

- **ICS (Intelligent Control System):** using sensors to assess the quantity and level of dirt present in the load, the ICS system automatically calculates the most appropriate wash, rinse and drying programme, ensuring the best possible results each time using the least water and energy.
- **Boost:** unique high pressure programme intended for the dirtiest of dishes! The AQUAJET spray arm delivers a constant and powerful spray throughout the interior giving perfect wash coverage that leaves no item untouched and works on even the toughest of stains.
- **Quick Wash:** ideal for lightly soiled items, this wash cycle handles a full load in just 30 minutes.
- **Crystal:** a wash programme specifically dedicated to delicate wine and champagne glasses.
- **Normal (Daily):** an everyday wash, ideal for all types of dishes.
- **Wash (Night):** with lower temperature settings, this is a slightly longer wash for everyday items and is therefore ideal to run overnight.
- **Intensive:** with a 70°C wash cycle, this is a great programme for stubborn cooking residue such as burnt-on lasagne, eliminating the need to soak overnight in the sink.
- **ECO Wash:** an environmentally friendly programme, this energy efficient wash cleans dishes at a lower temperature for longer but with excellent results.
- **Multi-tab Option:** used with any programme, this option works by modifying a programme's time and temperature to ensure that each component of the tablet is introduced at the correct stage for optimal cleaning results.
- **Delayed Start:** programmable delayed start by up to 24 hours.
- **Soak Prewash:** A cool wash to loosen dirt and stubborn cooking residues before the main wash.
